WESTERN STATES CONTRACTING ALLIANCE
MASTER PRICE AGREEMENT
for
COMPUTER EQUIPMENT, PERIPHERALS, AND RELATED SERVICES

Number B27166

This Agreement (this "Agreement", this "Master Price Agreement", or this "Contract") is made and entered into by IBM Corporation, 4660 La Jolla Village Drive, Suite 300, San Diego, CA 92122 ("Contractor") and the State of Minnesota, Department of Administration ("State") on behalf of the State of Minnesota, participating members of the National Association of State Procurement officials (NASPO), members of the Western States Contracting Alliance (WSCA) and other authorized Purchasing Entities. (collectively referred to herein as "Customer" or "State").

RECITALS

WHEREAS, the State has the need to purchase and the Contractor desire to sell; and,
WHEREAS, the State has the authority to offer contracts to CPV members of the State of Minnesota and to other states.

NOW, THEREFORE, in consideration of the mutual promises contained herein, the parties agree as follows:

INTENT AND PURPOSE

The intent and purpose of this Agreement is to establish a contractual relationship with equipment manufacturers to provide, warrant, and offer maintenance services on **ALL** Products proposed in their response to the RFP issued by the State of Minnesota. Delivery, support, warranty, and maintenance may be provided by the Contractor using subcontractors. The Contractor agrees to take legal responsibility for the warranty and maintenance of all Products furnished by Contractor under this Agreement. The Contractor is responsible for the timeliness and quality of all Services provided by individual subcontractors. Subcontractor participation on engagements involving other Participating Entities will be governed by those individual Participating Entities, who have the sole discretion to determine if they will accept Services from a subcontractor.

Individual Purchasing Entities may enter in to lease agreements for the Products covered in this Master Price Agreement, if they have the legal authority to enter into these types of agreements without going through a competitive process, and if the Contractor submitted copies of its lease agreements with its response to the RFP. The lease agreements were not reviewed or evaluated as part of the RFP evaluation process. The agreements are located in Exhibit C, Value-Added Services.

This Agreement is **NOT** for the purchase of major, large hardware or hardware and software offerings. In general, individual units/configurations for servers and storage (SANs, etc.) should not exceed \$300,000 each. Desktop per unit/configuration costs should not exceed \$100,000. Printers of all types and monitors per unit/configuration costs should not exceed \$50,000 each. It is the expressed intent of some of the Participating States to set this level at not to exceed \$25,000 each, or \$50,000. Contractors must be willing to comply with these restrictions by agreeing to supply Products in those price ranges only. This **IS NOT** a restriction on how many units/configurations can be purchased, but on the value of each individual unit/configuration. Individual Participating States and Participating Entities may set specific limits in a participating addendum above these limits, provided that if such purchases are under this Agreement, they will be with the prior approval of the WSCA Directors; or may set specific limits in a participating addendum below these limits.

Contractors may offer, but participating states and entities do not have to accept, limited professional Services related **ONLY** to the equipment and configuration of the equipment purchased through this Agreement.

1. Definitions

“Announced Promotional Price” are prices offered nationally to specific categories of customers (Consumer, Business or government) for defined time periods under predefined terms and conditions.

“Consumables” those items that are required for the operation of the Equipment offered or supplied which are consumed over time with the purchaser's use of the equipment are included – printer cartridges, batteries, projector bulbs, etc. Consumables such as magnetic media, paper and generally available office supplies are excluded.

“Configuration” in most instances in this document means a total system configuration. This may include more than one model or part number (or SKU), or a combination of hardware, software, and configuring of the system to make the system work.

“Contract” means a binding agreement for the procurement of items of tangible personal property, software, or services or for the use of items provided to Customer by Contractor under license. Contract, Agreement, and Master Price Agreement are used interchangeably in this document.

“Contractor” means the successful Responder who enters into a binding Master Price Agreement. The Contractor is responsible for all sales, support, warranty, and maintenance Services for the Products it agrees to provide under this Agreement. The Contractor must manufacture or take direct, non-assignable, legal responsibility for the manufacture of the equipment and warranty thereof. For the purposes of this Contract, the term Contractor and Contract Vendor are synonymous.

“CPV Member” is any governmental unit having independent policy making and appropriating authority, that is a member of Minnesota's Cooperative Purchasing Venture (CPV) program.

“CPV Program.” The Cooperative Purchasing Venture (CPV) program, as

established by Minn. Stat. § 16C.03, subd. 10, authorizes the commissioner of Administration to "enter into a cooperative purchasing agreement for the provision of goods, services, and utilities with [governmental entities] ..., as described in section 471.59, subdivision 1." Based on this authority, the commissioner of Administration, through the Materials Management Division (MMD), enters into a joint powers agreement that designates MMD as the authorized purchasing agent for the governmental entity. It is not legal for governmental entities that are not members of the CPV program to purchase from a State contract. Vendors are free to respond to other solicitations with the same prices they offer under a contract, but that is not considered use of the "State contract price."

"Cumulative Volume Discount" means a contractual, cumulative, permanent volume discount based on dollars resulting from the cumulative purchases by all governmental purchasers for the duration of the Master Price Agreement.

"Customer Set-Up Equipment" means IBM Equipment that Customer is responsible for installing according to instructions provided with it.

"Date of Installation" means the following:

- a. for IBM Equipment that IBM is responsible for installing, the business day after the day IBM installs it or, if Customer defers installation, makes it available to Customer for subsequent installation by IBM;
- b. for Customer Set-Up Equipment and non-IBM Equipment, the second business day after the Equipment's standard transit allowance period; and
- c. for a software Product --
 - (1) basic license, the second business day after the software Product's standard transit allowance period,
 - (2) copy, the date on which IBM authorizes Customer to make a copy of the software Product, and chargeable component (also called a feature), the date Customer uses the chargeable component or a copy. Customer agrees to notify IBM of the chargeable component's Date of Installation.

"Documentation" refers to manuals, handbooks, and other publications listed in the PSS, or supplied with Products listed in the PSS, or supplied in connection with Services. Documentation may be provided on magnetic media or may be downloaded by Customer from the Contractor's web site.

"E-Rate" is a program sponsored by the Federal Communications Commission whereby educational and other qualifying institutions may purchase authorized technology at reduced prices.

"Educational Discount Price" means the price offered in a nationally announced promotion, which is limited to educational customers only.

"Equipment" means workstations, desktop, laptop (includes Tablet PC's), handheld (PDA) devices, projectors, servers, printers, monitors, computing hardware, including upgrade components such as memory, storage drives, and spare parts. AUDIO VISUAL PRODUCTS (digital cameras, televisions, whiteboards, etc.) are NOT included in this RFP or subsequent contracts. The

exception to this definition is whiteboards, which can be sold as part of the Instructional Bundles, but not as a stand-alone item.

"FCC" means the Federal Communications Commission or successor federal agency. In the event of deregulation, this term applies to one or more state regulatory agencies or other governing bodies charged to perform the same, or similar, role.

"General Price Reduction Price" means the price offered to consumer, business or governmental purchasers at prices lower than PSS pricing. General price reduction prices will be reflected in the PSS as soon as practical.

"Lead State" means the State conducting this cooperative solicitation and centrally administering any resulting Master Price Agreement(s). For this Master Price Agreement, the Lead State is Minnesota.

"Licensed Internal Code" or "LIC" means Machine Code used by certain IBM Equipment IBM specifies (called "Specific Machines").

"Machine Code" means microcode, basic input/output system code (called "BIOS"), utility programs, device drivers, diagnostics, and any other code (all subject to any exclusions in the license provided with it) delivered with an IBM Machine for the purpose of enabling the Machine's function as stated in its published specifications. Machine Code includes LIC.

"Mandatory" The terms "must" and "shall" identify a mandatory item or factor.

"Manufacturer" means a company that, as its primary business function, designs, assembles, owns or has the right to trademarks and patents and markets computer equipment such as workstations, desktop computers, laptop (includes Tablet PC's) computers, handheld (PDA) devices, servers, printers, and storage solutions/auxiliary storage devices. The manufacturer must provide direct un-infringed limited USA OEM warranties on the Products. The manufacturer's name(s) shall appear on the computer equipment. The Contractor(s) shall provide the warranty Service and maintenance Services for equipment on a Master Price Agreement as well as a Takeback Program.

"Master Price Agreement" means the contract that MMD will approve that contains the foundation terms and conditions for the acquisition of the Contractor's Products and/or Services by Purchasing Entities. The "Master Price Agreement" is a Permissive Price Agreement. In order for a Purchase Entity to participate in a Master Price Agreement, the appropriate state procurement official or other designated procurement official must be a Participating State or Participating Entity.

"Materials Management Division" or "MMD" means the procurement official for the State of Minnesota or a designated representative.

"NASPO" means the National Association of State Procurement Officials

"Participating Addendum" or "Participating Addenda" means a bilateral agreement executed by the Contractor and a Participating State or political subdivision of a State that clarifies the operation of the price agreement for the State or political subdivision concerned, e.g. ordering procedures specific to a State or political subdivision and other specific language or other requirements.

Terms and conditions contained in a Participating Addendum shall take precedence over the corresponding terms in the master price agreement. Additional terms and conditions, including but not limited to payment terms, may be added via the Participating Addendum. However, a Participating Addendum may not alter the scope of this Agreement or any other Participating Addendum. ***Unless otherwise specified, the Participating Addendum shall renew consecutively with the Master Price Agreement.*** One digitally formatted, executed copy of the Participating Addendum must be submitted to the WSCA/NASPO Contract Administrator PRIOR to any orders being processed.

“Participating State” or “Participating Entity” means a member of NASPO (Participating State) or a political subdivision of a NASPO member (Participating Entity) who has indicated its intent to participate by signing an Intent to Participate, where required, or another state or political subdivision of another state authorized by the WSCA Directors to be a party to the resulting Master Price Agreement.

“PDA” means a Personal Digital Assistant and refers to a wide variety of handheld and palm-size PCs, and electronic organizers. PDA's usually can store phone numbers, appointments, and to-do lists. PDA's can have a small keyboard, and/or have only a special pen that is used for input and output. The PDA can also have a wireless fax modem. Files can be created on a PDA which is later entered into a larger computer. NOTE: For this procurement, all Tablet PC's are NOT considered PDA's. The Contractor(s) shall provide the warranty Service and maintenance for equipment on a Master Price Agreement as well as a Takeback Program.

“Peripherals” means any product that can be attached to, added within, or networked with personal computers or servers, including but not limited to storage, printers (including multifunction network printers), scanners, monitors, keyboards, projectors, uninterruptible power supplies and accessories. Software, as defined in the RFP, is not considered a peripheral. Adaptive/Assistive technology devices are included as well as configurations for use in an educational environment. Peripherals may be manufactured by a third party, however, Contractor shall not offer any peripherals manufactured by another contractor holding a Master Price Agreement without the prior approval of the WSCA/NASPO Contract Administrator. AUDIO VISUAL PRODUCTS (digital cameras, televisions, whiteboards, etc.) are NOT included in the contract. The exception to this definition is whiteboards, which can be sold as part of the Instructional Bundles, but not as a stand-alone item. The Contractor(s) shall provide the warranty Service and maintenance Service for equipment under this Master Price Agreement as well as a Takeback Program.

“Permissive Price Agreement” means that placement of orders through the Price Agreement is discretionary with Purchasing Entities. They may satisfy their requirements through the Price Agreement without using statutory or regulatory procedures (e.g., invitations for bids) to solicit competitive bids or proposals. Purchasing Entities may, however, satisfy requirements without using the Price Agreement as long as applicable procurement statutes and rules are followed.

“Per Transaction Multiple Unit Discount” means a contractual volume discount based on dollars in a single Purchase Order or combination of Purchase

Orders submitted at one time by a Purchasing Entity or multiple entities conducting a cooperative purchase.

“Political Subdivision” means local public governmental subdivisions of a state, as defined by that state’s statutes, including instrumentalities and institutions thereof. Political subdivisions include cities, counties, courts, public schools and institutions of higher education.

“Price Agreement/Master Price Agreement” means an indefinite quantity contract that requires the Contractor to furnish Products or Services to a Purchasing Entity that issues a valid Purchase Order.

“Procurement Manager” means the person or designee authorized by MMD to manage the relationships with WSCA, NASPO, and Participating States/Participating Entities.

“Product(s)” means personal computer equipment, peripherals, LAN hardware, pre-loaded Software, and Network Storage devices, but not unrelated Services. The Contractor(s) shall provide the warranty Service and maintenance Service for equipment under a Master Price Agreement as well as a Takeback Program.

“Products and Services Schedule Prices” or “PSS” refers to a complete list, grouped by major Product and/or Service categories, of the Products and Services provided by the Contractor that consists of an item number, item description and the Purchasing Entity’s price for each Product or Service. All such Products and Services shall be approved by the WSCA/NASPO Contract Administrator prior to being listed on the Contractor-supplied web site accessed via a URL. The Contractor(s) shall provide the warranty Service and maintenance Service for all equipment listed on the PSS on a Master Price Agreement as well as a Takeback Program.

“Purchase Order” means an electronic or paper document issued by the Purchasing Entity, and mutually agreed upon by the parties, that directs the Contractor to deliver Products or Services pursuant to a Price Agreement.

“Purchasing Card” means a form of company credit card.

“Purchasing Entity” means a Participating State or another legal entity, such as a political subdivision, properly authorized by a Participating State to enter into a contract for the purchase of goods described in this solicitation. “Refurbished Products” are Products that may have been powered on or used by another customer that have been fully retested according to Manufacturer’s standard procedures for the Refurbished Products; parts found to be defective replaced, and repackaged to meet the Product’s specifications.

These types of Services may include, but are not limited to: warranty Services, maintenance, installation, de-installation, factory integration (software or equipment components), asset management,

8. Termination

The following provisions are applicable in the event that this Agreement is terminated. Any terms of this Agreement that by their nature extend beyond the Agreement termination remain in effect until fulfilled, and apply to both parties' respective successors and assignees.

A. Termination for Convenience

At any time, the State may terminate this Agreement, in whole or in part, by giving the Contractor (30) days written notice; provided, however, neither the State nor a Purchasing Entity has the right to terminate a specific Purchase Order for convenience after it has been issued if the Product is ultimately accepted. At any time, the Contractor may terminate this Agreement, in whole or in part, by giving the WSCA/NASPO Contract Administrator sixty (60) days written notice. Such termination shall not relieve the Contractor of warranty or other Service obligations incurred under the terms of this Agreement. In the event of a termination for convenience or any other cancellation, the Contractor shall be entitled to payment, determined on a pro rata basis, for work or Services satisfactorily performed and in whole for Products delivered and accepted.

B. Termination for Cause

Either party may terminate this Agreement, or a Purchase Order, for cause based upon material breach of this Agreement, or the Purchase Order, by the other party, provided that the non-breaching party shall give the breaching party written notice specifying the breach and shall afford the breaching party a reasonable opportunity to correct the breach. If within thirty (30) days after receipt of a written notice the breaching party has not corrected the breach or, in the case of a breach that cannot be corrected in thirty (30) days, begun and proceeded in good faith to correct the breach, the non-breaching party may declare the breaching party in default and terminate this Agreement, or the Purchase Order, effective immediately. The non-breaching party shall retain any and all other remedies available to it under the law.

Termination of an individual Purchase Order shall not result in the termination of this Agreement nor any other Purchase Order. The termination of this Agreement shall not affect any Purchase Orders then in effect and such Purchase Orders will be performed and will continue to be governed by this Agreement, unless otherwise mutually agreed to.

C. A Purchasing Entity's Rights

In the event this Agreement expires or is terminated for any reason, except non-payment of fees, a Purchasing Entity shall retain its rights in all Products and Services accepted prior to the effective termination date.

D. The Contractor's Rights

In the event this Agreement expires or is terminated for any reason, a Purchasing Entity shall pay the Contractor all amounts due for Products and Services ordered and accepted prior to the effective termination date or ordered before the effective termination date and ultimately accepted, including, if applicable, taxes, expenses, charges, and return transportation and restocking fees.

9. Non-Appropriation

The terms of this Agreement and any Purchase Order issued for multiple years under this Agreement is contingent upon sufficient appropriations being made by the Legislature or other appropriate governing entity. Notwithstanding any language to the contrary in this Agreement or in any Purchase Order or other document, a Purchasing Entity may terminate its obligations under this Agreement, if sufficient appropriations are not made by the governing entity at a level sufficient to allow for payment of the Products or Services due for multiple year agreements, or if operations of the Purchasing Entity are being discontinued. The Purchasing Entity's decision as to whether sufficient appropriations are available shall be accepted by the Contractor and shall be final and binding.

A Purchasing Entity shall provide sixty (60) days notice, if possible, of its intent to terminate for reason cited above. Such termination shall relieve the Purchasing Entity, its officers and employees from any responsibility or liability for the payment of any further amounts under the relevant Purchase Order except for Services already performed or Products already delivered.

Thereafter, the Purchasing Entity assumes the risk.

Unless otherwise agreed upon by the Purchasing Entity, the Contractor is responsible for the pick-up of returned Products. In addition, the Minnesota Government Data Practices Act applies to all data created, collected, received, stored, used, maintained or disseminated by the Contractor in accordance with this Agreement that is private, nonpublic, protected nonpublic, or confidential as defined by the Minnesota Government Data Practices Act, Ch. 13 (and where applicable, that is not accessible to the public under the Rules of Public Access to Records of the Judicial Branch).
- B. In the event the Contractor receives a request to release the data referred to in this article, the Contractor must immediately notify the State. In the event that the Contractor subcontracts any or all of the work to be performed under this Agreement, the Contractor shall retain responsibility under the terms of this paragraph for

such work.

- D. An example of the terms of a confidentiality agreement is described in Exhibit F.

35. Organizational Conflicts of Interest

- A. The Contractor warrants that, to the best of its knowledge and belief, and except as otherwise disclosed, there are not relevant facts or circumstances which could give rise to organizational conflicts of interest. If an organizational conflict of interest is determined to exist, the State may, at its discretion, cancel this Agreement. In the event the Contractor was aware of an organizational conflict of interest prior to the award of this Agreement and did not disclose the conflict to the WSCA/NASPO Contract Administrator, the State may terminate this Agreement for default. The provisions of this clause shall be included in all subcontracts for work to be performed, and the terms "Contract," "Contractor," and "WSCA/NASPO Contract Administrator" modified appropriately to preserve the State's rights.

Such consent shall not be unreasonably withheld. The Contractor shall give written notice to the State's authorized agent of such a possibility at least 30 days prior to the sale, transfer, assignment, or other disposition of this Agreement. Failure to do so may result in the Contractor being held in default. This consent requirement includes reassignment of this Agreement due to a change in ownership, merger, or acquisition of the Contractor or its subsidiary or affiliated corporations. This section shall not be construed as prohibiting the Contractor's right to assign this Agreement to corporations to provide some of the services hereunder. Notwithstanding the foregoing acknowledgment, the Contractor shall remain solely liable for all performance required and provided under the terms and conditions of this Agreement. The Contractor may assign payments in advance with specific provisions stated in a Participating Addendum.

Reports submitted within five (5) business days of the report due date shall not be deemed as a default by Contractor. The report shall be in the format developed by the Lead State and supplied to the Contractor for its review and mutual written consent prior to execution of this Agreement. Any changes to the reporting format shall require mutual written agreement. Contractor shall be released from reporting on the Lead State requested fields of UNSPSC codes until such time as Contractor shall have the capability to include the field(s) in its reports. Contractor will have the reporting capabilities to include the aforementioned fields within nine (9) to twelve (12) months of the commencement of this Contract. Notwithstanding the foregoing, Contractor will commence reporting on the requested fields once contractor's reporting tools are capable.

2. The Contractor agrees to provide quarterly Administrative Fee check payable to WSCA/NASPO for an amount equal to one-twentieth of one percent (0.0005) of the net sales for the period. The form to be submitted with the check, as well as the mailing address, has been supplied to the Contractor prior to or upon execution of this Agreement. Payment shall be made in accordance with the following schedule:

Reporting on this information will occur no more than once quarterly, and will commence once the Contractor has the capability to generate automated reports to include this information for its US based customers. The number and type of units taken back are currently displayed as credit invoice in the utilization report

described in Section 44. A.1.

5. The utilization reports shall be submitted to the WSCA/NASPO PC Contracts Reporting person and the WSCA/NASPO Contract Administrator via electronic mail in a Microsoft Excel spreadsheet format, or other methods such as direct access to Internet or other databases.

8. The WSCA/NASPO Contract Administrator shall be allowed access to all reports from all Purchasing Entities.

B. Participating Entity Reports and Fees

1. Participating Entities may require an additional fee be paid directly to the State on purchases made by Purchasing Entities within that State. For all such requests, the fee level, payment method and schedule for such reports and payments shall be incorporated in to the Participating Addendum that is made a part of this Agreement. All such agreements shall have no affect whatsoever on the WSCA fee or the prices paid by the Purchasing Entities outside the jurisdiction of the State requesting the additional fee.
2. Purchasing Entities will be encouraged to use the reporting format developed by the lead State for their reporting needs. However, the Contractor may agree to provide additional reports to Purchasing Entities upon agreement by both parties as to the format, content and delivery methods of the report. Agreement), a Participating Entity (in the case of a breach of the participating addendum), the Purchasing Entity (with respect to any order), or the Contractor. Time allowed for cure shall not diminish or eliminate any liability for liquidated or other damages.

- C. If the default remains after the opportunity for cure, the non-defaulting party may:
1. Exercise any remedy provided by law or equity;
 2. Terminate this Agreement, a Participating Addendum, or any portion thereof, including any Purchase Orders issued against this Agreement;
 3. Impose liquidated damages as mutually agreed by the parties, as specified in a Participating Addendum;

EXHIBIT A – ADDITIONAL WARRANTIES

A. Warranty for IBM machines

IBM warrants that each IBM Machine is free from defects in materials and workmanship and conforms to its Specifications. The warranty period for a Machine is specified, fixed period commencing on its Date of Installation. During the warranty period, IBM provides repair and exchange Service for the Machine, without charge, under the type of Service IBM designates for the Machine. If a Machine does not function as warranted, during the warranty period and IBM is unable to either 1) make it do so or 2) replace it with one that is that least functionally equivalent, you may return it to IBM and your money will be refunded.

B. Warranty for IBM ICA Licensed Programs

IBM warrants that each warranted IBM Program, when used in the Specified Operating Environment, will conform to its Specifications. The warranty period for a Program expires when its Program Service are no longer available. During the warranty period, IBM provides defect-related Program Services without charge. Program Services are available for a warranted Program for at least one year following its general availability. If a program does not function as warranted during the first year after you obtain your license and IBM is unable to make it do so, you may return the Program and your money will be refunded. To be eligible, you must have obtained your license while Program Services (regardless of the remaining duration) were available for it.

Warranty for IBM IPLA Licensed Programs

IBM warrants that the Program, when used in its specified operating environment, will conform to its specifications. The warranty applies only to the unmodified portion of the Program. IBM does not warrant uninterrupted or error-free operation of the Program, or that IBM will correct all Program defects. Licensee is responsible for the results obtained from the use of the Program.

During the Warranty Period (one year, starting on the date the original Licensee is granted the license), IBM provides Licensee with access to IBM databases containing information on known Program defects, defect corrections, restrictions, and bypasses at no additional charge.

Consult the IBM Software Support Handbook for further information at <http://www.ibm.com/software/support>.

If the Program does not function as warranted during the Warranty Period and the problem cannot be resolved with information available in the IBM databases, Licensee may return the Program and its PoE to the party (either IBM or its reseller) from whom Licensee obtained it and receive a refund of the amount Licensee paid. After returning the Program, Licensee's license terminates. If Licensee downloaded the Program, Licensee should contact the party from whom Licensee obtained it for instructions on how to obtain the refund.

C. Warranty for IBM Services

IBM warrants that it performs each IBM Service using reasonable care and skill and according to its current description (including any completion criteria) contained in this Agreement, an Attachment or a Transaction Document.

D. Warranty for Systems

Where IBM provides Products to you as a system, IBM warrants that they are compatible and will operate with one another. This warranty is in addition to IBM's other applicable warranties.

E. Extend of Warranty

If a Machine is subject to federal or state consumer warranty laws, IBM's statement of

limited warranty included with the Machine applies in place of these Machine warranties.

The warranties stated above will not apply to the extent that there has been misuse (including, but not limited to, use of any Machine capacity or capability, other than that authorized by IBM in writing), accident, modification, unsuitable physical or operating environment, operation in other than the Specified Operating Environment, Improper maintenance by you or failure caused by a product for which IBM is not responsible. With respect to Machines, the warranty is voided by removal or alteration of Machine or parts identification labels.

F. Items not Covered by Warranty

IBM does not warrant uninterrupted or error-free operation of a Product or Service or that IBM will correct all defects. IBM will identify IBM Machines and Programs that it does not warrant.

THESE WARRANTIES ARE YOUR EXCLUSIVE WARRANTIES AND REPLACE ALL OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OR CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

EXHIBIT B – COMPLAINT RESOLUTION

IBM Service and/or Equipment

IBM is dedicated to maintaining a high degree of customer satisfaction. Key to this is a proactive approach to potential problems. However, when problems do occur we have well documented processes to assign the resource(s) necessary to quickly and accurately resolve customer problems.

Hardware and Software Support 1-800-IBM-SERV

The IBM support organization's goal is to ensure customer satisfaction by:

- Responding to your calls within targeted guidelines
- Providing ongoing communication regarding your problem status through problem resolution
- Taking ownership of your call for support
- Providing a defined escalation process when management assistance is needed
- Maintaining our commitment to continuous improvement of our service processes

IBM support gives you the ability to contact IBM and ask installation and usage related questions as well as make defect inquiries about eligible products. You have the option of voice (1-800-IBM-SERV) or electronic access (<http://www.ibm.com/support>) to a team of technical specialists. IBM support enables you to reduce your own research time, increase productivity, and concentrate more on your core business. Support is available 24 hours per day, 7 days per week, 365 days per year.

For all eligible products, IBM can help you with:

- General Support:
 - Usage and installation questions
 - Product compatibility and interoperability questions
 - Interpretation of product documentation
 - Diagnostic information reviews to help isolate the cause of a problem
 - Configuration samples
 - IBM and multivendor database searches
 - Planning information for software fixes
- Defect Support
- Electronic Support:
 - Submit problems and get answers electronically
 - View screens remotely
 - Submit documents electronically
 - View open problems that have been submitted
 - Search IBM's question and answer database

Before contacting support, you will need to gather information about the problem and have it on hand when discussing the situation with a specialist:

- Define the problem
- Gather background information
- Gather relevant diagnostic information

- Determine the business impact – assign a severity level
 - Severity 1
 - Critical business impact, this indicates you are unable to use the program resulting in a critical impact on operations. This condition requires an immediate solution
 - Severity 2
 - Significant business impact, this indicates the problem is usable but is severely limited
 - Severity 3
 - Some business impact, this indicates the program is usable with less significant features (not critical to operations) unavailable
 - Severity 4
 - Minimal business impact, this indicates the problem causes little impact on operations or that a reasonable circumvention to the problem has been implemented

When you call support to report an IBM software problem or update/gain status on a problem, your request will be routed to a technical specialist. For onsite support, IBM will attempt to diagnose and resolve the problem remotely before sending a technician onsite. Onsite response times vary dependent on purchased warranty and maintenance coverage options. IBM will use commercially reasonable efforts to respond by telephone to hardware and software service calls within two business hours during normal country business hours, and within two hours during off-shift hours for critical problems. Our initial response may result in resolution of your request, or it will form the basis for determining what additional actions may be required to achieve technical resolution of your request.

Whether you contact IBM by telephone or electronically, once logged, a unique problem management record (PMR) or Incident/Support case is created. Your PMR, Incident or Support Case is routed to a resolution team for handling. You may be transferred directly to the resolution team or your issue will be placed in a queue for call back. In either case, the next person you speak with will be a specialist in the appropriate resolution team.

At the resolution team level your call is researched, resolved, or escalated as appropriate. Due to the level of specialization required to maintain superior technical expertise at the team level, it is sometimes necessary to involve more than one support team in resolving a particular software problem. This is easily handled, as our support teams are all networked together and work as one to resolve whatever problems or issues arise.

If at any point in our service process, your expectations are not met by IBM, you may call our attention to this problem by asking to speak with a Duty Manager or by calling your local customer service executive. Escalations to an IBM manager will receive prompt attention and management focus. The Duty Manager or customer service executive will work with our technical staff to meet your expectations and appropriately handle your request. Further escalation procedures for complaint resolution are described in the following "IBM Complaint Management Process for Customer Complaints and Escalation Management" section of this RFP response.

IBM Billing and Ordering Support

IBM is committed to product order and invoice accuracy. Key to improving accuracy is IBM's electronic ordering and billing systems.

Electronic Billing:

IBM Invoices OnLine allows you to view your invoices using an Internet browser. Once you register with us providing an e-mail address and your IBM customer numbers, you'll receive a login ID and password. Whenever new invoices are issued, you will receive an e-mail notification alerting you to this fact. You can then login to Invoices OnLine and view them. You can also search the invoice database by customer number, date range, invoice type or payment status to view previously delivered invoices.

Electronic Data Interchange (EDI) will transmit invoices electronically to you and can feed right into your inventory management and / or accounts payable systems. IBM charges no fee for electronic invoicing. If you are interested in this method contact us by calling the toll free number on the top of your invoice or by sending a note to address in the upper left corner of your invoice and we will have someone contact you regarding this option.

eProcurement:

IBM can help leverage your investment by integrating your eProcurement system with an IBM electronic catalog. We provide the catalog with the products and prices you are entitled to through your current agreement/contract with IBM. Your end users can shop for the IBM products they need and place their order electronically.

In the event there is a problem with your order or invoice, IBM telephone support for ordering or billing inquiries is available from 8:00 am to 8:00 pm EST, Monday through Friday, by calling 1-877-426-6006, option 2.

IBM Customers with ordering inquiries also have the ability to submit an online request for order related inquiry.

Additionally, there are two different methods available within Invoices On-Line to electronically communicate with us if you have a question, comment, or problem with an invoice. The invoice inquiry function available from Invoices On-Line automatically creates a pre-populated inquiry form that includes the customer number, invoice number, your name, account name, e-mail address and telephone number is pre-populated on the form, all you need to do is select from a list the reason for your inquiry or invoice dispute and submit the form to us. We will review your request and respond to you as quickly as possible. You can also send an e-mail to us by clicking on the "Contact Us" button.

Once received by the IBM customer service team (telephone or electronic), our goal is to respond to your inquiry within one business day. Most inquiries are quickly resolved. If at any point in the inquiry process, your expectations are not met by IBM, you may call our attention to this problem by asking to speak with a CSO (customer service operations) Manager. CSO Managers are assigned geographically throughout the United States. Escalations to a CSO manager will receive prompt attention and management focus. They will work with our order and billing staff to meet your expectations and that appropriately handle your request.

Further escalation procedures for complaint resolution are described in the following section.

IBM Complaint Management Process for Customer Complaints and Escalation Management

The Complaint Management Process is the business process IBM uses to manage customer complaints and escalations when "business as usual" or advertised or entitled support processes have been exercised but have failed to resolve the customer's problem in a timely manner.

A customer complaint is defined as:

- A request from a customer or IBMer to correct an unfulfilled customer expectation or commitment/promise
- A failure from a previous customer-IBM interaction to deliver on a commitment/expectation

When the customer has attempted to exercise all or part of the advertised or entitled support structures to resolve a problem and is dissatisfied with its progress, customers may complain to an IBM executive. In these cases, these are referred to as executive complaints.

A critical situation is defined as:

- A customer complaint that is escalated within IBM to a status of Critical. Escalation to a Critical Situation is considered when
 - The problem is causing or is about to cause severe impact to the customer's business, or
 - Customer satisfaction has or is about to erode to the point that customer loyalty is in jeopardy, or
 - IBM determines that this problem is jeopardizing IBM's relationship with this customer and additional actions must be taken to save that relationship

An alert is defined as:

- A situation used primarily by the service/marketing offices to notify a pre-established list of people when a customer in that office/area has a critical product failure. This is often used for system down situations so that appropriate people are made aware of this situation and may act to resolve it.

A proactive situation is defined as:

- A situation created internally by IBM for the purpose of complaint avoidance. When an IBM employee becomes aware of a situation which may lead to customer dissatisfaction if not addressed, they may proactively engage additional resources to resolve the problem. The customer may or may not be aware that the situation has been opened.

The Complaint Management Tool is a consolidated, worldwide information system that supports management of customer and executive complaints, critical situations, proactive and alert situations. It links complaint management personnel in all geographies within IBM business units, product divisions, and headquarters for streamlined escalation management.

The key Roles and Responsibilities of the Complaint Management Tool are:

- Feedback Collector (FC), the person with initial contact with the customer
 - Captures key customer information, such as contact information and problem description
 - Categorizes the primary problem/issue so that the complaint can be routed to the most appropriate Resolution Owner
- Response Coordinator (RC), identifies the most appropriate RO or RTL or RA to engage in a situation when a request for assistance is made
 - Ensures right RO/RTL from their organization is assigned
 - Monitors progress against responsiveness indicators such as 7-day Close or Action plan, 48 hour RO acknowledgement, and 48 hour RTL assignment
 - Keeps functional management informed
- Resolution Owner (RO), acts as the customer advocate by serving as the primary IBM interface with the customer
 - Contacts the customer within 48 hours to acknowledge ownership of the situation and determine the customer's conditions of satisfaction
 - Develops and documents a customer-agreed to action plan within 7 working days of open
 - Qualifies situations for the escalation process
 - Engages a Resolution Team Leader and Resolution Assistants if assistance is needed to resolve the customer concerns
 - Confirms with customer that the issue is resolved to their satisfaction and that the customer agrees to closure
- Resolution Team Leader (RTL), teams with the Resolution Owner to resolve the customer's issue
 - Develops and manages the IBM internal resolution action plan

- Provides technical/organizational knowledge to help engage the right resources, including RAs
- Works in partnership with the Resolution Owner
- Resolution Assistant (RA), assists the RO or the RTL
 - Performs action plan tasks
 - Provides assistance in resolving the customer request or preventing recurrence
- Senior Executive Reviewer (SER) is the senior executive escalation process which provides
 - Issues already escalated through worldwide customer satisfaction project offices whose resolution was not acceptable to the General Manager of the Resolution Owner's (RO) organization
 - Situations affecting multiple customers which identify pervasive and complex issues involving multiple Divisions where the problems have not been resolved

How the CM tool works to resolve customer complaints:

- A customer complaint is received by any customer contact person (the Feedback Collector).
- The Feedback Collector records the customer's issue and contact information and categorizes the customer's primary problem. The FC requests assistance in assigning the appropriate Resolution Owner based upon the customer's issue.
- The RO contacts the customer within 48 hours to acknowledge ownership, explore the customer's conditions of satisfaction, develops an action plan which may involve escalation to various levels of management across divisions, and resolves the customer complaint. If resolution assistance is needed, the Resolution Owner requests assistance for a Resolution Team Leader to be assigned within 48 hours.
- The RO and the RTL document and execute the agreed-to action plan to resolve the situation.
- When the customer agrees the situation is resolved, the RO closes the situation.

Exhibit E – Website Product & Price Audit Requirements

Website Product and Price Audit

The IBM System x on-line WSCA/NASPO stores receive nightly, automated product updates which help ensure the accurate, contract-entitled products and prices are made available to WSCA/NASPO end users. In addition, the IBM web team will perform quarterly manual audits to validate product and pricing compliance. Specifically, IBM will randomly select several WSCA/NASPO stores to review products for appropriate discounts. We will rotate the part numbers reviewed quarterly in order to apply a broader sampling. This quarterly assessment will also be done for the other IBM brands to ensure the product and price files are accurately displaying information appropriate to the participating WSCA/NASPO entity. Upon request, IBM will provide a summary of the quarterly reviews.

Sales Audit Report Format:

- The IBM Contract Administrator for the WSCA/NASPO contract will perform quarterly audits to ensure the WSCA/NASPO end users paid the discounted or lower price. Specifically IBM will test one tenth of one percent (.001) of orders, at least one if any sales, no more than 100 orders per quarter. Orders will be randomly selected but will be reviewed to ensure different brands are covered. IBM will provide a summary of the quarterly reviews to the WSCA/NASPO Cooperative Development Team..

Notice to IBM Customers

June 16, 2009

Services Withdrawal: Declaration of plan to discontinue lease, rental, and maintenance services for selected machines

IBM United States is announcing its plan to discontinue from lease and rental agreements, and to withdraw from maintenance services, the machine types and model numbers listed on the attached pages. The discontinuance/withdrawal action is necessary due to changes in technology, production methods, inventories, experience in the field, or costs of production or delivery that make it increasingly difficult to continue to provide the skills, manufacturing support, and other resources required to keep the machines at a high level of performance and availability.

At this time, we are providing you with your final notice that the machine types and models listed will be discontinued from lease and rental, and will be terminated from IBM maintenance services under the IBM Customer Agreement (or comparable agreement between us), effective with the dates listed below. IBM will not send any further correspondence of this nature for the machine types and models listed in this notice.

After the effective date of termination, IBM hourly service will be available for purchased machines, except for non-IBM machines listed, depending on the availability of skills and other resources, such as parts, tools, and test equipment. Orders for maintenance parts, in reasonable quantities for maintenance purposes, will continue to be accepted in the normal manner for three years following discontinuance, or until stocks are depleted, whichever is earlier.

In response to each request for hourly service, IBM will determine if an IBM service representative qualified to provide such service is available at the nearest point of service. IBM will, at the customer's request, dispatch a qualified representative from another point of service, if available. The IBM hourly service provided will be at IBM's applicable rates (minimums and prices then in effect), and will include all time (including travel and assist time), expense, and parts associated with the service.

IBM will attempt to complete such maintenance or other services in as timely and effective a manner as possible. However, if IBM determines that it is unable to fully restore the machine to good working order, or to complete any other service, IBM will notify the customer. In any case, all time, expense, and parts associated with the IBM service provided will be charged to the customer. IBM will also accept special requests for Multiple Vendor Services (subcontracted maintenance) after the effective date of termination. Every effort will be made to find a supplier who can support the machines. However, there is no guarantee that a supplier will be available to support all machines or that a supplier is available at all locations.

Should you require additional information, please contact your IBM representative.
